MOLOTOW™ THE ORIGINAL

FULL RANGE 2023

MARKER AND SPRAY #04

MADE IN GERMANY

2023

Als wir 2008 unsere nachfüllbaren Acrylmarker konzipierten, waren wir uns selbst einen Schritt voraus. Ende 2014 verfassten wir dann unsere niedergeschriebene Nachhaltigkeits-Philosophie, welche wir auf fast alle Produktlinien angewendet haben. 2016 folgte die Zusammenarbeit mit der Firma Schneider Schreibgeräte - unser strategischer Kompetenzpartner aus dem Schwarzwald.
Darauf sind wir stolz.

When we conceived our refillable acrylic markers in 2008, we were one step ahead of ourselves. Afterwards, at the end of 2014 we wrote our sustainability philosophy which we applied on nearly all product ranges. In 2016 we started the cooperation with Schneider Schreibgeräte GmbH – our strategic competence partner from the Black Forest.
We are proud of this.

Nach einer zweijährigen Pandemie bringt 2023 ganz neue Herausforderungen: Krieg, Klimakrise und Rohstoffknappheiten haben, neben schwindender Menschlichkeit und Ethik, ebenfalls Einfluss auf die Wirtschaft und damit auf unsere Unternehmungen.
Für die Marke MOLOTOW™ ein Zeichen, dass wir mit unserer Nachhaltigkeitsphilosophie schon vor Jahren den richtigen Weg eingeschlagen haben.

After a pandemic break of two years, 2023 brings new challenges: war, climate crisis and a shortage of raw materials. Besides humanity and ethics which are fading away, this has also an impact on the economy and our business enterprises.
A sign for the brand MOLOTOW™ that we've chosen the right path with our sustainability philosophy years ago.

Doch Mühe wird auch belohnt: mit unserer Produktinnovation SKETCHER konnten wir 2022 gleich zwei RED DOT AWARDS abräumen. Der Twinmarker besteht aus 95% recyceltem Kunststoff und spart bei seiner Produktion ca. 80% CO2-Emissionen ein.

However, efforts pay off: as a result, we've won the RED DOT AWARD in two categories with our product innovation SKETCHER. The twin marker consists of 95% recycled plastics and its production saves around 80% CO2 emissions.

Für 2023 hat sich MOLOTOW™ das Ziel gesetzt, den Fokus auf genau diese Kernkompetenzen zu fokussieren und Ideen, Produkte und Konzepte weiter auszubauen.
Die Weiterentwicklung nachhaltiger Maßnahmen steht damit in unserem Geschäftsfokus. Mit großer Motivation möchten wir weitere, positive Unternehmungen in Gange bringen.

For 2023 MOLOTOW™ aims at focusing on its core competences while expanding ideas, products, and concepts. Therefore, we put high emphasis on the further development of sustainable measures.
With high motivation we want to get further positive undertakings going.

SKETCHER
SUSTAINABLE TWIN MARKER

*Standard-Spitzenausstattung mit Keil- und Pinselspitze
Standardly equipped with a chisel and brush tip

Nachhaltig, innovativ und ästhetisch.
Mit der 3-jährigen Entwicklung des Twinmarkers, in Zusammenarbeit mit Schneider Schreibgeräte GmbH, bricht nun eine neue Ära für Grafikmarker an. Der in Deutschland produzierte Twinmarker besteht zu 95% aus recyceltem Plastik. Dank Patronenaustausch-system mit robuster, hörbarer Einrastfunktion, kann außerdem bis zu 56% Kunststoff, beim Kauf einer Patrone (anstelle eines Markers), eingespart werden.

Sustainable, innovative and aesthetic.
A new era of twin marker has just begun – after 3 years of development in cooperation with Schneider Schreibgeräte GmbH. The twin marker produced in Germany consists of 95% recycled plastics. Thanks to a cartridge exchange system with a robust and hearable locking function, up to 56% of plastics can be avoided when buying a new cartridge instead of a complete marker.
